Epson Recognized as Global Leader for Engaging Its Supply Chain on Climate

Change

EPSON

EXCEED YOUR VISION

MANILA, Philippines, March 4, 2020 – Seiko Epson Corporation (TSE: 6724, "Epson") has been identified as a global leader for engaging with its suppliers on climate change, being awarded a position on the Supplier Engagement Leaderboard by global environmental impact non-profit CDP.

Epson has been recognized for its actions and strategies to reduce emissions and manage climate risks in its supply chain in the past reporting year. Over 4,800 companies in total were assessed by CDP and given a Supplier Engagement Rating, based on answers to selected questions about governance, targets, scope 3 emissions, and value chain engagement of their response to the CDP 2019 climate change questionnaire and their overall CDP climate change score. COMPANY is among the top 3% of organizations assessed by CDP, one of almost 160 companies on the Leaderboard this year.

Epson recognizes climate change/ global warming as the most serious issue facing the planet. In response, we are striving to achieve our Environmental Vision 2050, and will leverage our efficient, compact and precision technologies as we take aggressive measures to reduce the environmental impact of our products and business operations, and throughout our value chain.

About Epson

Epson is a global technology leader dedicated to becoming indispensable to society by connecting people, things and information with its original efficient, compact and precision technologies. The company is focused on driving innovations and exceeding customer expectations in inkjet, visual communications, wearables and robotics.
